

秀丽 II 型及秀丽 II s 型号卷帘帘页的主要工件 - 聚碳酸酯帘页, 由我们资深的卷帘工程师研发而成, 每件聚碳酸酯帘页两侧只有一支连接管, 这项独特的设计确实傲视同侪, 在功能上和外观上都有其优点: 两侧只有一支连接管的聚碳酸酯帘页组构成的卷帘帘页, 结构紧密, 线条简洁明快, 赏心悦目, 不会藏污纳垢, 积聚尘埃; 由于聚碳酸酯帘页两侧连接管, 外径只有 20.7mm, 组构成的卷帘帘页厚薄适中, 给人的观感是不太单薄, 也不太赘累。著重产品细节的用家会欣赏秀丽 II 型及秀丽 II s 型卷帘。

Major component of CS II and CS IIs roller shutter - polycarbonate panel, which is designed by our group of experienced engineers. Only one joining tube is needed on each side of the polycarbonate panel, and this unique design brings functional and appearance breakthrough. Part of the joining tube on each side is connected to combine as our shutter curtain, with compact structure and simple appearance. The outer diameter of the joining tube is 20.7mm and it brings suitable thickness to the slats. CS II and CS IIs are best for designers who care for product details.
