

秀丽 II 型及秀丽 II s型横趟式开关卷闸

13

秀丽 II 型及秀丽 II s型卷闸帘页可应用於横趟式开关卷闸，我们的卷闸工程师对帘页的节距，帘页两侧的连接管可承受的撕裂力，帘页垂直方向的连接杆外径与传动链条的匹配，帘页如何平衡和平稳地滑接在导轨上，帘页在受控的状态下在导轨上运行等等，每一个细节都有周详考量，研制成无懈可击的秀丽 II 型及秀丽 II s型横趟式开关卷闸。

CS II and CS IIs laterally sliding roller shutter.

14

When developing CS II shutter slats, making polycarbonate panel applicable to laterally sliding operation was one of our goals. Hence, we need to concern the pitch of polycarbonate panel, the high tensile strength of joining tubes, the coordination of vertical joining rod and driving chains, the balanced and smooth setting of polycarbonate panel onto guiderails. Finally after long and serious deliberation, we are proud to introduce you our impeccable CS II and CS IIs laterally sliding roller shutters.
