

大跨度卷闸：这是一幅秀丽 II 型+秀丽 II s型的横趟式开关卷闸，总面积是30550x3000mm(H),安装於香港九龙机铁站圆方商场。这幅横趟式开关卷闸，不但跨度大，而且整个行程都成弧形，左弯右转，弯位达十个之多，这幅卷闸的设计、制作和安装的工艺要求极高。秀丽 II 型及秀丽 II s型的聚碳酸酯帘页，两侧只有一支连接管的设计，那是专为横趟式开关卷闸及特大跨度卷闸帘页而设计的组件。在门闸市场上，独一无二。香港标准专利号：HK1050294。我们资深的卷闸从业员队伍以卓越的专业精神，一丝不苟的工作态度做成一幅完全符合设计师和客户期望并深受赞赏的卷闸产品。我们拥有一队资深的，专业的门闸从业员队伍。三十年来，我们的专业队伍努力为门闸市场研发符合市场要求，令顾客称心满意的产品，包括动力系统的创新设计和多项引以自豪的发明专利。我们的专业队伍也积极为我们的尊贵客户解决了无数门闸的设计和安装上的难题；我们是尊贵客户忠诚的、可信赖的合作伙伴。

Large spans shutter: This CS II + CS IIs laterally sliding roller shutter, with size 30550 x 3000mm (H), is located at Elements, Hong Kong. This laterally sliding roller shutter need to suit large span with more than ten curves in its running path. And it requires superior technique on design, fabrication and installation. Two parts together make our wonderful CS II and CS IIs roller shutter, the first one is the polycarbonate panel, the major component. Our polycarbonate panel with single joining tube is specially designed for the laterally sliding roller shutters or large span shutters. And it is a remarkable and unique design on the doors and shutters market. Hong Kong Standard Patent Number: HK1050294. Another one is our experienced technical team. They design and fabricate such wonderful products with all their endeavours and that's why our products are highly appreciated by our clients. Our technical team is experienced and professional. For over 30 years, our professional team has developed a number of satisfying products, including new products with power system. And we are proud to obtain four patents with all their effort. And our professional team has solved a large number of design or installation problems on doors and shutters for our clients. We are always your best devoted and reliable partner.
