

聚碳酸酯帘页保护膜：店铺装饰工程进行时，若聚碳酸酯帘页被油漆弄污，或沾上尘垢往往使卷闸帘页蒙受不可补救的损坏。我们在秀丽Ⅱ型及秀丽Ⅱs型聚碳酸酯帘页的左右两侧各贴有一片保护膜，直到商铺装饰工程全部完成后才撕去，确保卷闸帘页光洁明亮，透视清晰。我们认为这是聚碳酸酯卷帘必须的设备，不要小觑这小小两片保护膜，它们的成本高昂，却代表了我们以客为尊的承诺，也代表了我们的服务力求妥善的工作态度。

Polycarbonate panel protective layer: Paint and dirt easily stick on polycarbonate panels of shutters under shop decoration. To ensure providing high quality products to our clients, we add a protective layer on both sides of the polycarbonate panels and the layer will only be removed after all the decoration finished. This design is greatly welcome by designers, sub-contractors and shop owners and regarded as a necessity for polycarbonate transparent shutters. The cost for the protective layer is high, however we insist doing so, it stands for our goal in providing our best products to our customers.
